

## NEW SYSTEMS ADOPTED FOR SAFEGUARDING PATIENTS

THIS STUDY CHOSE TO SANITISE ROOMS USING  
THE CERTIFIED  
**POLTI SANI SYSTEM**  
WITH SUPERHEATED DRY STEAM (180°C).  
IN JUST A FEW SECONDS IT ENABLES OPERATING THEATRES  
TO BE SANITISED BETWEEN ONE PATIENT AND THE NEXT.

THE **POLTI SANI SYSTEM**  
IS USED ALONGSIDE THE INSTRUMENT STERILISING  
SYSTEMS ALREADY PRESENT IN THIS SURGERY  
(SATURATED STEAM AUTOCLAVES) IN ACCORDANCE  
WITH THE APPLICABLE STANDARDS.

THE PATENTED **POLTI SANI SYSTEM** DELIVERS SUPERHEATED DRY SATURATED STEAM  
AND IN A FEW SECONDS IT LOWERS THE BACTERIAL, FUNGAL AND VIRAL LOAD  
OF THE SURFACES AND FABRICS TO WHICH IT IS APPLIED.  
**IT REPLACES CONVENTIONAL CHEMICAL DISINFECTANTS.**
